MEMORANDUM FOR: Special Support Assistant/DDS

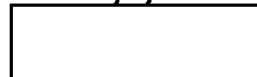

SUBJECT : Helicopter Service from Langley Office Building

As requested we support the idea of helicopter service between Langley and the metropolitan area.

NE could use service between Langley and State on a daily basis. We would use it not only for State business but for operational meetings elsewhere using State as Zone 1 taxi area.

It is estimated that an average of 5 people would use the service on a daily basis at hours spread between 0900 and 1700.
